# TOTO

## CLEAN TECHNOLOGY SINCE 1917

Bathing culture has always played a major role in Japanese tradition, which is why this nation has such high standards for hygiene and comfort in the bathroom. TOTO have been producing shower toilets longer than any other company, selling 50 million around the world so far. WASHLET™ quickly gained popularity after being introduced in the 1980s.

Today, shower toilets are found in 65% of Japanese households, this legacy gives our customers the confidence that shower toilets from TOTO have developed far past the prototype stage. WASHLET™ models are the product of nearly 40 years of expertise and represent the most advanced technology available on the market.

## What is a WASHLET™ ?

WASHLET™ is the name of the world's No.1 shower toilet developed over 35+ years by Japan's TOTO company developers and manufacturers of bathroom technology since 1917.

All WASHLET™ shower toilets use an hygienic WAND™ to provide gentle cleansing with warm water for a fresh, clean feeling.

## What are the benefits of a WASHLET™ ?

Part of Japanese lifestyle for years, the shower toilet is still new to Europeans. Cleansing with warm water after using the toilet provides an especially clean feeling.

The special wand jet system is fully adjustable, allowing users to set the precise temperature, position and spray type for comfortable intimate cleansing. All easily soiled parts of the shower toilet stay clean and hygienic.

## TOTO WASHLET™

With seven models available in lots of configurations (wall-mounted, close-to-wall or close-coupled) TOTO offer the widest selection for all budgets and applications.

- **GL 2.0** The solution with added functions
- **RX A** minimalistic, curved design option
- **SX A** simpler, angular design option
- **RW** All the features with stunning curved design
- **SG 2.0** The all-round solution with added hygiene
- **NEOREST EW 2.0** The ultimate solution with added hygiene and comfort
- **NEOREST AC 2.0** The premium solution for total hygiene and comfort

## GL 2.0 WASHLET™

Prices start from £2,010 inc VAT

*The GL 2.0 is available with both hidden and side connections. It can be combined with various toilets from TOTO.*

*The GL 2.0 features all TOTO comfort technologies, including the adjustable warm water spray, temperature control, different types of sprays, a heated seat, a Deodoriser, and drying function. Two users can save preferred settings and activate them at the touch of a button using the remote control.*

*The toilet bowl is sprayed with water before use, which makes it more difficult for dirt and waste to accumulate.*

*When not used for extended periods of time, the GL 2.0 automatically switches to energy saving mode.*

## RX WASHLET™

Prices start from £2,899 inc VAT

**SPECIAL OFFER FROM £2,299 inc VAT**

*WASHLET™ RX combines elegant design with TOTO's consistently high standards of hygiene.*

*The RX model also includes an adjustable warm water spray, which is heated by a continuous-flow water heater to ensure unlimited warm-water cleansing. It also has a heated seat, odour-absorbing deodoriser and the PreMist feature, which automatically sprays a fine mist of water onto the toilet bowl before use. This helps wash away anything that might stick to the surface.*

*The seat on WASHLET™ RX is made of durable urea resin.*

*Like all WASHLET™ models, it's possible to save preferred spray settings for two users on the remote control and access them at the touch of a button.*

**SPECIAL OFFER!**

## SX WASHLET™

Prices start from £2,899 inc VAT

**SPECIAL OFFER FROM £2,299 inc VAT**

WASHLET™ SX has the same features as the RX – the only difference is the shape.

The angular WASHLET™ SX has an elegant, slim urea resin seat and is equipped with TOTO's proven technologies.

The SX includes the familiar comfort and hygiene features TOTO is known for: the heated seat, adjustable warm water spray (with continuous-flow water heater for unlimited cleansing), odour-absorbing deodoriser and PreMist function.

Like all WASHLET™ models, it's possible to save preferred spray settings for two users on the remote control and access them at the touch of a button.

**SPECIAL OFFER!**

## RW WASHLET™

Prices start from £3,588 inc VAT

**SPECIAL OFFER FROM £2,999 inc VAT**

WASHLET™ RW combines TOTO's class leading technologies in a stylish curved shape with added design elements.

The RW model also includes an adjustable warm water spray, which is heated by a continuous-flow water heater to ensure unlimited warm-water cleansing. It also has a new seamless heated seat to aid ease of cleaning, odour-absorbing deodoriser and the PreMist feature, which automatically sprays a fine mist of e-water onto the toilet bowl before use. This helps wash away anything that might stick to the surface.

The New sleek remote control features touch-sensitive control functions.

Like all WASHLET™ models, it's possible to save preferred spray settings for two users on the remote control and access them at the touch of a button.

**SPECIAL OFFER!**

## SG 2.0 WASHLET™

Prices start from £4,096 inc VAT

The SG 2.0 has all the standard features available in all other shower toilets of TOTO.

In addition to the characteristic warm water spray, the SG 2.0 has a heated seat, an odour-absorbing deodoriser, dryer, and the ewater+ function. This feature sprays the toilet bowl with electrolysed water. The antibacterial ewater+ actively breaks down waste.

Instead of being stored in an additional tank, the water for the SG 2.0 warm water spray is heated by a continuous flow water heater. This means unlimited warm water for intimate cleansing.

## NEOREST EW 2.0 WASHLET™

Prices start from £9,044 inc VAT

The NEOREST EW 2.0 is basically identical to the flagship NEOREST AC 2.0 – the only difference is that the EW 2.0 does not feature the self-cleaning Actilight technology.

Before use, the NEOREST EW 2.0 sprays the inside of the toilet bowl with water – after all, less waste will stick to a wet surface. Once the toilet is flushed, the WASHLET™ sprays the bowl with electrolysed water. This ewater+ has an antibacterial and cleansing effect. Like the NEOREST AC 2.0, the NEOREST EW 2.0 has a sensor-activated lid which opens and closes by itself, an automatic flush and an adjustable dryer. The heated seat and deodoriser ensure that your visit to the bathroom is more pleasant. The wand jet system for personal cleansing is, of course, individually adjustable.

All the functions, including the water jet temperature, pressure and position, can be conveniently adjusted using the remote control.

# NEOREST AC 2.0 WASHLET™

Prices start from £11,689 inc VAT

The NEOREST AC 2.0 is the first shower toilet of TOTO with self-cleaning properties. It features the proven WASHLET™ technologies and also actively combats dirt and bacteria. Actilight technology utilises an integrated UV light and zirconium coating to break down bacteria and dirt. The electrolysed ewater+ has an antibacterial and cleansing effect.

The PreMist function helps fight bacteria and dirt from the outset. This sprays the toilet bowl with water before use, making it more difficult for waste to accumulate. The NEOREST AC 2.0 also has a sensor-activated lid which opens and closes by itself, an automatic flush and an adjustable dryer. The heated seat and deodoriser ensure that your visit to the bathroom is more pleasant. The wand jet system for personal cleansing is, of course, individually adjustable and provides unlimited warm water thanks to the continuous-flow water heater.

## WASHLET™ Advanced hygiene functions

### PreMist

Once the toilet has been flushed, electrolysed ewater+ is being sprayed onto the toilet bowl, which has an antibacterial and cleansing effect. It is absolutely safe for the environment and can be returned to the water cycle without worry.

### ewater+

Once the toilet has been flushed, electrolysed ewater+ is being sprayed onto the toilet bowl, which has an antibacterial and cleansing effect. It is absolutely safe for the environment and can be returned to the water cycle without worry.

### Actilight

The selfcleaning toilet bowl uses a photocatalytic process, which requires two components – UV light and the special zirconium coating. This is why the NEOREST AC 2.0 features a UV light integrated into the lid of the toilet bowl. The UV light automatically switches on once the sensoractivated lid is closed.

All organic substances in the toilet bowl are broken down, and the toilet remains clean for a much longer period of time.

# WASHLET™ THE CLEAN MACHINE

As clean as brand new -  
with every use

TOTO have developed WASHLET™ technology for over 40 years with advanced features to make your shower toilet the most hygienic experience to use and maintain.

## Wand jet position

The Wand jet extends at a 43° angle during cleansing this ensures the Wand cannot be contaminated when in use

## Self-cleaning Wand

The Wand jet automatically cleans itself inside and out before and after every use

## Wand jet material

The Wand jet is made of a silicone-based material, which makes it difficult for dirt or waste to stick

## PreMist

A fine mist of water is sprayed onto the ceramic surface, forming a water film that makes it difficult for waste and dirt to accumulate

## Rimless design

The rimless toilet bowl is standard on all TOTO toilets. There are no difficult to reach places for dirt and waste to accumulate

## Wand above the rim

The Wand is fully covered when not in use to protect it from contamination

## Tornado Flush

All toilets feature the unique power of the Tornado Flushing system

## CeFiONtect glaze

The unique CeFiONtect glaze is super smooth making the toilet easy to clean as it is difficult for dirt and waste to stick

## TORNADO™ FLUSH

### Quietly Powerful

All WASHLET™ WC pans incorporate Tornado™ Flush. Multiple jets create a vortex of water which thoroughly and quietly cleans the bowl completely after every flush.

### So Powerful, So Hygienic, So Quiet

*Multiple jets create a circulating whirlpool that bundles the water into a single powerful flow cleaning practically every point of the bowl and forcing debris from the toilet.*

*The Tornado™ Flush system requires no more water than a regular flush and as the water does not 'crash' into the pan the toilet is very quiet in operation.*

## WASHLET™

### Clean control

All TOTO WASHLET's (except the EK 2.0) are operated through an intuitive remote control designed for simplicity but with advanced features.

The EK 2.0 WASHLET™ combines all operating functions through an easy-to-use side

### Stopping

*To stop any function at anytime, press here*

### Rear Cleansing

*Two options regular or soft cleansing*

### Front 'lady' Cleansing

*Cleansing especially for ladies*

### Oscillating Cleansing

*The Wand™ moves back and forth for thorough cleansing*

### Pulsating Cleansing

*Water pressure pulses between soft and strong for thorough cleansing*

### Water Pressure Adjustment

*For you to set the pressure from soft to strong*

### Wand™ Position Adjustment

*For exact position control of the Wand™*

### User Memory

*Memory storage for two users*

# TECHNOLOGY OVERVIEW

## Unique clean technologies

### WASHLET™ technologies

-  **Warm water nozzle**  
*An individually adjustable wand system with self-cleaning function*
-  **Heated seat**  
*Individually adjustable temperature*
-  **Deodoriser**  
*Filter system to absorb odours*
-  **Dryer**  
*Adjustable jet of warm air*
-  **PreMist**  
*Mist of water sprayed onto the ceramic before the toilet is used. Makes it more difficult for dirt and waste to accumulate*
-  **Auto functions**  
*Sensor based technologies*
-  **Actilight**  
*Zirconium coating combined with UV light for an anti bacterial effect that breaks down waste*
-  **ewater +**  
*Electrolysed antibacterial water that eliminates bacteria*

### Green technologies

-  **Water-saving**  
*Technologies to save water*
-  **4.5l flush**  
*Watersaving full flush uses just 4.5 litres*

### Hygiene technologies

-  **Tornado flush**  
*Highly effective two or three jet flush*
-  **CeFiONtect**  
*Smooth glaze for a special hygienic ceramic surface*
-  **Rimless design**  
*Ceramic toilet bowl without hard to reach areas along the top edge*

# WASHLET™ FRAMES
